

It's a great day, I'm feelin' good, oh-oh-oh
The [] of what I could, oh-oh-oh
Do with the world at my finger tips
My imagination brings a smile up to my lips, oh-oh-oh
Fascinated I am movin' fast, oh-oh-oh
I'm optimistic as the days go past, oh-oh-oh
[] is here for me
So come along and take a look because I want you to see, yeah-ah-ah
The world is yours, look a little bit []
If you want it, come and get it, you can take it over
You can make your tomorrows what you want them to be
You've got the power in your hands to shape your history
You gotta take it up a level and go up []
Put more fuel in the tank and turn up the fire
Come on, and take leap into your destiny
And come on up, come up, come up with me
We're going up, up up, and up, up, up
We're going up, up up, and up, up, up
We're going up to the top, won't stop, now I'm []
Celebrate life, good times all around
I wanna keep it, keep it simple, so it's not complicated
And what goes up doesn't have to come down, oh-oh-oh
It's looking like another sunny Sunday
Good days are here, no I'm not waiting on one day
Get up, get movin', and come on and see
Because it's time to live a life,
a life that's happy and free, yeah-ah-ah
The [] is yours, look a little bit closer
If you want it, come and get it, you can take it over
You can make your tomorrows what you want them to be
You've got the power in your hands to shape your []
You've gotta take it up a level and go up higher
Put more fuel in the tank and turn up the fire
Come on, and take leap into your []
And come on up, come up, come up with me
