

Listening. Part 1.

Listen to three people (A-C) talk about the necessity of exams. Match each opinion (1- 6) with a speaker. You will hear the recording twice.

A: Speaker 1

B: Speaker 2

C: Speaker 3

Opinions:

1. Doesn't agree with employers on the significance of qualifications.
2. Performing well in exams doesn't provide practical skills for the workplace.
3. People whose grades were worse than the speaker's perform better at work.
4. Exams can assess different abilities, not only the ability to remember information.
5. Taking exams has influenced his/her character or behavior.
6. A lot of students will not stay motivated without exams.

Listening. Part 2.

Complete the sentences by filling in the blanks with the correct words based on the listening. You will hear the recording twice.

1. Some people initially believed that _____ between teachers and students was reduced by email.
2. The effectiveness of educational technology is influenced by the _____.
3. One of the most common tools used for education around the world is the _____.
4. By posting their best work, students build _____, which allows them to show their _____.
5. Another advantage of online learning platforms is _____.
6. Students get help with time management by planning their _____, setting deadlines, and staying on track.
