Working with Numbers

Number Line

1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20

Numbers

Look at the number line. It shows the _____ 1 to 20 in order. Some numbers are even and some numbers are odd. The _____ are blue and the _____ are red.

Counting

Read the even numbers aloud. When there are a lot of things in a group, we can use the _____ to count the things by twos. This helps us to count fast. _____ by twos.

Addition

We use _____ every day. It helps us count things.
We join groups of things with _____

This is a _____
It tells us to add the numbers together.

This is an _____
It tells us that the numbers on both sides are the same amount.

+ =

This is the _____

90
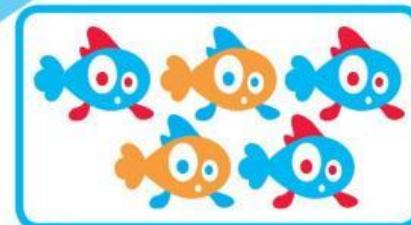

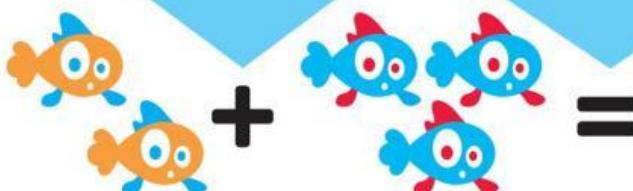

We say, "Two plus three equals five."

We write ...

$2 + 3 = 5$

Addition problems

Let's use addition to work out answers to these word [ ]

You have [ ] orange seashells. I have [ ] green seashells.
How many [ ] do we have?
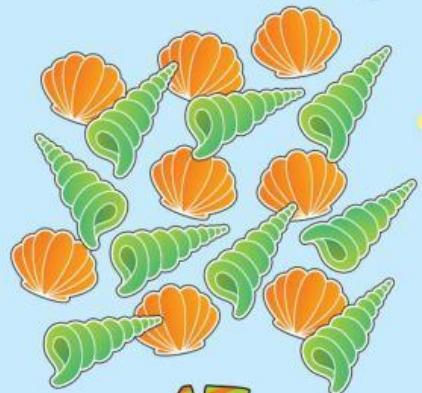

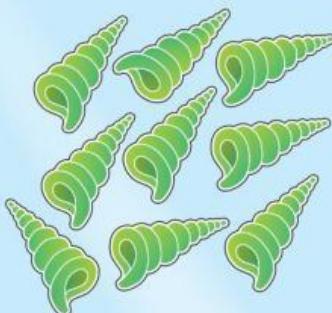

$8 \quad + \quad 9 \quad = \quad 17$

They have [ ] red crabs, [ ] blue crabs, and [ ] yellow crabs.
How many [ ] do they have?
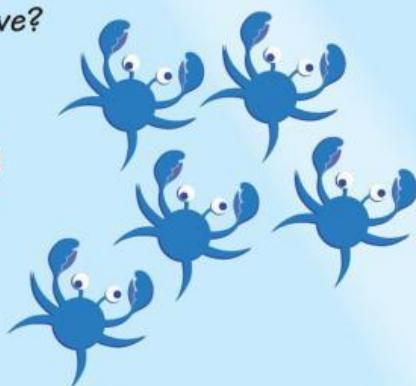

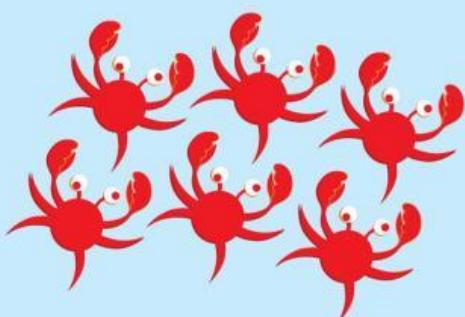

$6 \quad + \quad 5 \quad + \quad 4 \quad = \quad ?$

How do you use addition every day?
