

MONTHLY EXAM

READING, TASK 1: *You are going to read a page from a brochure with advertisements for four unusual leisure experiences. For questions 1-7, choose from the advertisements (A-D). The advertisements may be chosen more than once or not chosen at all.*

Do Something Different

A - Indoor Skydiving

If you have always wanted to try skydiving, but are afraid of flying, here is the answer - indoor skydiving. You will feel like you are freefalling from a plane, even though you are only about two feet off the ground, as a giant propeller blasts air at 200 mph, suspending you in the airflow. It is a freefall experience that everyone must try, at the world's biggest skydiving wind tunnel, in Bedfordshire, England. Compared to other similar experiences on the market, you will get more 'flight time' in the wind tunnel and, when you finish, a DVD containing footage of your flight for you to remember the experience. This facility also caters to international skydiving teams, so be assured that you'll be in the safest hands. The tunnel was originally built over fifty years ago to study aerodynamic forces, and later to test the strength of aeroplane parts such as ejector seats. Four decades later, the tunnel was restored. A reasonable level of fitness is required in order to participate. Spectators can watch the dive from the free viewing gallery, but the loud noise makes it unsuitable for very young children.

B - The Cathedrals Express Steam Train

Step back into the 19th century as you take a train ride on the Cathedrals Express, which runs from central London to some of England's most beautiful cathedral cities. It's the perfect experience for romantic couples, Harry Potter fans and those who want to relive the good old days. As you travel, you will dine on superb food while sitting at a table with lovely views of the countryside. The train is an exact replica of one that operated during Victorian times, and the carriage interiors are beautifully decorated. It is an unusual sight, so expect people to wave at you as you go by. Of course, you may wish to wave back! When the train pulls into the terminus, you are released from the fantasy for a short spell, as you have the chance to shop or see the sights. Trains and stations have ramps for wheelchair users. Spectators are welcome to see the train depart and meet it on its return.

C - Traditional Circus Skills

Do you want to learn some new skills? Are you fed up with the usual routine and want to do something a little more exciting than walking around the shopping centre on Saturday mornings? Then roll up, roll up - come and join the circus! During your session at Britain's top circus skills school, you will learn about the physical strength required for the trapeze and acrobatics, practise your coordination skills while juggling and attempt to acrobalance (otherwise known as tightrope walking). All the instructors are professionals with first-hand knowledge of the techniques and equipment used. You'll be learning the basics in no time, so you can impress all your friends with your new skills when you get home. It is recommended that you wear casual clothes that don't restrict your movement - a tracksuit and trainers would be ideal. Participants must be at least 14 years old, and although they don't need to be in absolutely tip-top shape, a reasonable level of fitness is required if you want to get the most from this course. Spectators are welcome throughout. Unfortunately, there is no disabled access at the school.

D - Scuba Diving

Are you having trouble finding things to do with the kids? Here's an idea. At the Aqua Fun Programme, young adventurers are introduced to the thrill of breathing under water. They are first taught the basic procedures for scuba diving, including safety and communication with fellow divers, and familiarised with the equipment before dipping their toes into the water. All the instructors are qualified Diving Instructors. Then, under constant supervision, they get to dive and swim around in a swimming pool, at a maximum depth of only 6m, but still, experience what it would feel like to be in a natural diving environment. Parents are welcome to watch as their children learn to scuba dive and enjoy splashing around making bubbles underwater. Children don't have to be strong swimmers and previous experience is not needed. You must bring your own swimwear, but all other equipment will be provided.

Which of the advertisements mention(s):

1. something participants in the experience must bring with them? A - B - C - D
2. giving you something to take home with you? A - B - C - D
3. giving you the chance to take a break from normal life? A - B - C - D
4. what participants will learn before the start of the activity? A - B - C - D
5. regret that a specific type of visitor cannot enter the place? A - B - C - D
