AUDIO

Hi! You know what I really, really like? Fruits and vegetables! They taste yummy and they help you be strong and healthy.

My favorite fruit is the banana. They are so sweet! I like to eat them just like that or with a little bit of cream. I also really like apples, especially the green ones because they are a little bit sour – yum!

For vegetables, I think broccoli is super cool. Mommy says it looks like little trees, and I like to pretend I'm a giant eating a forest! I also like carrots. They are crunchy and sweet, perfect for a snack!

Sometimes I don't like all the vegetables, like onions, but I know they are good for me! What about you? What are your favorite fruits and vegetables?
