Much of the work of WWF focuses on the survival of endangered animals and the protection of their natural habitats.

- A. protected B. appeared C. threatened D. vanished

C. READING : (1.0 pts)

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.

Global warming is said to be a culprit of many destructive natural damages. Many research shows that glaciers in Antarctica and Greenland are melting quickly, which has a detrimental influence on ocean currents. Cold lands are habitats of various polar mammals; therefore, ice melting means that their homeland is shrinking in size, and **they** will be on the brink of extinction. Furthermore, scientists point out that the global rising temperature results in the death of many coral reefs in many regions and the disappearance of various kinds of fish. It is not to mention the fact that human life has also been threatened. Most meteorologists and marine experts agree that the change of average heat worldwide links to the extensive storms and hurricanes, and other naturally severe disasters happening around the planet. Recently, a **devastating** tornado has badly torn a coastal state in the USA, killing at least 70 people and destroying a lot of houses and infrastructure. The town mayor said that he had never seen such a violently tremendous natural phenomenon before. Many European countries have also witnessed the rage of Mother Nature when they have been hit by ferocious storms taking months to recover the local people's normal life. No one will know exactly the future, but the worst scenario of the earth can be predictable for sure if humans continue treating the environment as they are doing. Global warming is an emergency issue that should be resolved immediately.

1. What is the passage mainly about?
A. Disastrous results of global warming.
B. How bad humans are treating the earth.
C. The deadly storms and tornadoes occurred in many countries.
D. The reason why glaciers are melting.
2. The word "**devastating**" in the line 9 is closest in meaning to _____.
A. suffering B. damaging C. conserving D. polluting
3. According to the text, where has suffered badly in a destructive tornado lately?
A. A mountainous area in a European country B. A coastal state in Canada
C. A central state in the USA D. A seaside state in the USA
4. Without timely actions, the worst future of humans' life can be _____.
A. solved immediately B. seriously influenced C. certainly forecast D. surely avoided

IV. WRITING: (1.5 pts)

Finish each of the following sentences in such a way that it means the same as the sentence printed before it.

1. The bus goes to Long Bien. It doesn't run today. (combine 2 sentences, using relative pronoun)

→

2. "I am doing a project on the world's leading environmental organisations." Mr. Minh said.

→ Mr. Minh said.....

3. Sue doesn't have Tony's email address so she can't send him a message.

→ If.....
