D. There were some problems with the center's lems with the center's facilities initially.

IX. Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions from 1 to 6.

Saving the Environment: One Home at a Time

Pollution can be seen not only throughout the world, but also in our own homes. It comes from household chemicals, the amount of water people use and the waste people produce and throw away. What can be done to stop this pollution? Surprisingly, a person can help save the environment by doing simple things.

First, we need to recycle, which allows products to be used over and over again. Recycling can also reduce the number of trees cut down to produce paper products. It takes very little effort. It is not hard to place plastic and glass bottles, aluminum cans and paper in a bin. Anyone can do it.

Second, we need to control the amount of water used at home. It can be conserved by taking short showers instead of baths, repairing leaky faucets, using the dishwasher or washing machine only when fully loaded, or simply turning the faucet off while brushing your teeth.

Third, we need to reduce waste. We need to recycle whenever possible, but should also try to use this waste effectively. For example, grass clippings and food scraps can be made into compost for plants. The average person produces 4.3 pounds of waste every day, but we can reduce that amount by recycling and reusing. If we do our duty at our homes, we can help keep the planet from becoming more polluted.

Question 1: What is the main idea of the passage?
A. Recycling is the only way to help the environment.

LIVEWORKSHEETS

B. Individual water usage and waste are more important than recycling.
C. Individual can help reduce pollution through simple actions at home.
D. Pollution in homes is caused only by household chemicals.

Question 2: Why does recycling help to reduce waste?
A. Plants need to develop
B. Waste can be recycled and reused
C. A person can ride a bus in homes
D. An average man produces compost for plants

Question 3: According to the passage, we can help reduce water usage by all of the following sources EXCEPT:
A. Never cut down trees
B. Place garbage bins easily
C. Use products again and again
