PASSAGE 27

Tra ID Đề [5797] - Tra ID Video [5798]

Humans are destroying the Earth's tropical rain forests. Nearly 80,000 square kilometers are being destroyed every year. About a quarter of the (1) _____ comes from people cutting trees for fuel. Another quarter is to make grassland for their cattle. The (2) _____ trees are cut down to sell the wood or to start a farm.

The population in cities all over the world is growing, and more and more wood is needed to build huge new buildings. For example, 5,000 trees from the Sarawak rainforest in Malaysia were used to build just one tall building. (3) _____ people continue cutting down trees in Sarawak rainforest, all the trees could be gone in eight years.

The world needs more food, and it seems like a good idea to clear the rainforests and use the land for (4) _____. Many people think that the land (5) _____ these huge, thick forests must be in rich nutrients, but it isn't. This is another surprising thing about rainforests. Most of the land in tropical rainforests is very (6) _____.

Question 1: A. destroying	B. destruction	C. destructive	D. destroyer
