People often say 'You are what you eat' and we all know that to be healthy we need to eat healthy food. What is really healthy, though?

1 All fruit juices **contain** high amounts of sugar. Some juices have only very low **amounts** of fruit in them – and as much sugar as a glass of cola or a chocolate bar.

2 It's true that salads are full of vitamins and minerals. Creamy mayonnaise-based salad dressings, however, can contain a lot of fat, sugar and salt. To enjoy a healthy, **tasty** salad at home, make a dressing by adding lemon juice or vinegar to a small amount of olive oil instead of using heavy mayonnaise.

3 Food companies like using the words 'fat-free' or 'low-fat' on their labels. Unfortunately they often **replace** the fat in these 'healthier' products with salt and sugar to give them

flavour. It's a good idea to read the whole label.

4 People think chocolate is bad for them, but it has some **benefits**. Good quality dark chocolate helps protect your heart by **lowering** your cholesterol. Eating chocolate also has a positive effect on how we feel. All chocolate is high in fat, though, so you shouldn't eat it after every meal.

5 Eggs are a good source of protein and vitamins. Frying an egg though, is less healthy than boiling them. A fried egg contains around 30% more fat than a boiled or poached egg. If you prefer fried eggs, try frying them in olive oil instead of butter.

6 Red meat such as beef can be part of a healthy diet. Including red meat in a meal a couple of times a week helps your body to get enough iron and protein. Just make sure you **trim off** the fat and buy only **lean** meat.

Check these words

contain, vitamin, mineral, creamy, salad dressing, vinegar, olive oil, fat-free, low-fat, label, flavour, benefit, lower, cholesterol, source, iron, protein, lean

PART II. Read the following information and complete the exercises.

We use the **-ing form**:

- after **avoid, appreciate, be used to, consider, continue, deny, fancy, go (+ activity), imagine, miss, save, suggest, practise, prevent, spend/waste (time/money) on**.

- after prepositions.

- with the phrases **it's worth, can't stand, have difficulty, look forward to, can't help**. *I can't stand eating spicy foods.*

We use the **to-infinitive**:

- to express purpose.
He went out to buy some milk.

- after **too/enough**. *It was too difficult for her to learn how to cook.*
