PASSAGE 50

Tra ID Đề [5843] - Tra ID Video [5844]

The first CCTV cameras (1) _____ in Britain in 1953, and by the 1960s there were just few cameras in major streets in London. Today, there are more than four million CCTV cameras across the country. That's one camera for (2) _____ fourteen people. The cameras are there to film dangerous or illegal behaviour. With new software, they can (3) _____ recognise the faces of known criminals, and a new kind of CCTV in the Netherlands can detect angry voices and warn the police of trouble. But these cameras don't just watch criminals; they watch all of us, almost all of the time. Every time we go into a shop, or use a cash machine, or travel on public transport, a camera records our actions.

The amount of surveillance in towns and cities across Britain is increasing. Some goods in shops now have RFID (Radio Frequency Identification) tags attached to them. When you (4) _____ one of these items, the RFID tag sends a radio message to a CCTV camera and the camera starts filming you. Shops say that this technology helps to catch shoplifters - but only by (5) _____ everybody as a potential criminal.
