Many travellers feel nervous about going to a new and unfamiliar place. If you plan your trip carefully and learn to take precautions, you can relax and enjoy yourself.

Check Your Paperwork

While you prepare for your departure, make sure your paperwork is organized. You'll want to check the dates on your visas and passport. Having an important document expire before or during your trip is the last thing you want to happen. Be sure to get an international driver's license if you plan to drive while you are abroad. Also, do some research on the local currency. Some countries - like Jamaica - use more than one currency.

Mind Your Health

If you need to take medication along, keep it in its original container. If you are carrying prescription drugs, bring a letter from your doctor in case customs officials Question you at your destination. Also, make sure that you travel with proper medical insurance so that if you are sick or injured while traveling, you will be able to get treatment.

Learn About the Locals

It's always a good idea to buy a guidebook and a map, and read about the local culture of the country you will be visiting. For example, it's important to know that in India you should use the right hand to eat, or to give and accept things. In Thailand, it's rude to point with your feet at someone or something. Also, try to learn a few basic words and phrases of the local language. If you have trouble communicating, look for students and young people who might speak a foreign language. And remember to smile. It's the friendliest and most sincere form of communication, and is understood everywhere in the world!
