PASSAGE 53

Tra ID Đề [5974] - Tra ID Video [5975]

Students today have many educational choices and some students are leaving their country to study. There are four million international students and this is increasing every year. Of course, lots of international students travel to America, Canada, Britain and Australia. But students aren't just going to English-speaking countries. More than 200 000 international students are studying in China today. They are looking for good universities with an interesting social life.

Students can also get an international education in their home country. There are over 160 international campuses all over the world and this number is growing. Students at these campuses have a Western-style education. Some people think this is a bad thing because later, the students often leave their home countries and go overseas to work.

Other people say there are lots of advantages to an international education. International students leave universities with up-to-date ideas and take this knowledge back to their countries. Students also learn the language and culture of these countries.

International education is changing universities too. Now they are becoming more **diverse,** with students from all over the world. International students bring new ideas and new ways of looking at the world.
