

Wildflower

-Billie Eilish

Things fall apart
And time breaks your,
I wasn't there, but I know
She was your girl
You her the,
But of love and you both let go

She was cryin' on my,
All I could do was hold her
Only made us closer until,
Now I know that you love me
You don't need to me
I should put it all behind me, shouldn't I?

But I see her in the back of my..... all the time
Like a like I'm burning alive, like a,
Did I cross the line? (Mm)
Hmm

Well, good things don't,
And life moves so fast
I'd never..... who was better
'Cause she couldn't be
More different from me
Happy and free in leather

fever fell out heart
world showed ask
mind shoulder sign
July remind last
