Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions.

The smartphone is one of the most important electronic devices in today's world. It combines the features of a phone, a computer, and a camera into a single device. Most smartphones allow users to make calls, send text messages, and connect to the internet. With the rise of apps, smartphones have become tools for social networking, gaming, online shopping, and even learning.

Smartphones have changed how we communicate. People can video call friends and family anywhere in the world. Social media apps allow users to share their lives instantly. However, this convenience also has some **downsides**. Many people find themselves spending too much time on their phones, which can affect their sleep and personal relationships.

Battery life is a crucial feature of smartphones. Users want their devices to last all day without needing a charge. Many smartphones now come with fast charging technology, allowing users to recharge their devices quickly. Additionally, the cameras on smartphones have improved **significantly**, making it easier to take high-quality photos and videos.

Question 30: What's the main idea of the reading passage?
