- a) She doesn't like making breakfast.
- b) Smart homes will make us lazy.
- c) We can do more when we live in smart homes.

**Would you like to live in a smart home? Why/Why not?**

Now watch the video where Dave is explaining the structure **HAVE SOMETHING DONE – causative**.

Here is a short summary of the grammar explained

**HAVE (any tense) + OBJECT + PAST PARTICIPLE**

I'm having my computer repaired.

You have all your food delivered to your house.

Bill Gates had a smart house built.

We use **have something done** to talk about things that are **done for us by other people**, usually professionals. We often pay them to do this action.

**Get** is sometimes used instead of **have** in informal or spoken language.

We can use the preposition **by** to introduce the agent – the person or thing which does the action

Now practice

**Rewrite the sentences using HAVE SOMETHING DONE**

**Ex.** They fixed our computer last week. We **had** our computer **fixed** last week.

(**keep the tense!** – there is past simple – so also the verb HAVE will be in past simple tense + past participle of the verb fix, which is fixed – computer – the object goes in between)

1.- Someone **has delivered** Miriam's newspaper this morning.

Miriam

2.- Someone **did** Alice's make-up at 13,30 pm.

Alice

3.- The photographer **had taken** George some photos.

George

4.- The mechanic **is changing** Peter's car battery.

Peter

5.- The hairdresser **dyed** my mother's hair last Saturday.

My mother's hair

6.-The dentist **checks** my teeth once a month.

I

7.- They're **painting** the kitchen on Saturday.

We

8.- They **are going to** service my sister's car next week.

My sister

9.- Her parents **pay** her mobile phone bills.

She

10.-They **have reinstalled** the operating system on his computer.

He
