What does work look like in an NGO?

Drag and drop

- Onboarding & Training
- Report & Planning
- Screening & Assessment
- Roles
- Open call to SP students from educational organizations.
- Open call to community members (parents, students from any discipline, retirees).

General Volunteers

Recruitment

- **Modular "Step-by-Step" Workshops (total ~8 hours)**
  - **PFCC approach –** active listening, asking non-leading questions.
  - **Milestones of communication-** e.g. red flags
  - **Safe swallowing risks and strategies** – recognizing risk factors and basic safe swallowing strategies
  - **Documentation skills** – accurately record patients information
  - **Case-Study Labs** – small-group discussions of 2–3 real-world cases.

- **Visiting services** – join SP rounds at local play-groups or centres, observe or help hand out questionnaires.
- **Support Tasks** – escort families through the process, keep parents comfortable, handle simple form follow-ups.

Skilled Volunteers

Recruitment

Roles

- **Information gathering**
  - The SP gathers additional background information
  - administers formal and informal assessments
  - The SP compiles the assessment findings into a written report and.
  - Then, together with the family and any other professionals, agrees on intervention goals and home-practice activities.
- **Ongoing support and reviews**
  - The SP joins periodic review meetings to monitor progress and adjust the plan
