Portion control is also important when you're trying to lose weight. One problem many overweight teens have is that they underestimate how much they really eat. So, stop super-sizing, and learn what a healthy portion looks like. It may also help to eat more suitably. Six small meals per day appears to be one of the best approaches to eating, especially when you're trying to lose weight. Just remember these mini meals need to be small. If you feel you are overweight, talk to your primary health care provider or a registered dietitian. There are plenty of medically supervised diets that work well for teens who need to lose more than 10 pounds. Just be sure to include exercise, or you'll find that the weight comes back as easily as it left you.

(Adapted from: <https://www.webmd.com>)

1. What can be the best title of the passage?

A. A tip to lose weight.

B. How to gain weight?

C. Trick to control portion.

D. weight

3. What is the issue that many overweight teens have?

A. overestimate how long they eat

B. underestimate the food they eat

C. overestimate the times they eat

D. underestimate how much they eat

4. What can we infer from the passage?

A. Overweight teens always underestimate how much they eat.

B. Eating smaller, more frequent meals can be helpful for weight loss.

C. Doing exercise is more important than maintaining weight loss.

D. It's useless to consult a healthcare provider or registered dietitian.

**Part 5:** Read the following passage and decide if the statements that follow are TRUE or FALSE. (1.0 pt)

Sardinia is the second largest island in Italy. It is famous for its beautiful nature and a variety of ancient crafts. One of the crafts that makes the island well-known is basket weaving. This is considered one of the most remarkable handicrafts on the island because it combines manual skills and natural resources.

Baskets are usually woven by Sardinian women. They have handed down the techniques from generation to generation. The shapes and dimensions of the baskets are different according to the technique, the area

of production, and the kind of material used. They use various natural materials such as willow, palm, straw, and hay.

In the past, people hung the baskets on the walls of their houses or displayed them on shelves like artwork. Today the baskets are used in homes or used for decorative purposes. People really appreciate the craft because nowadays it is increasingly rare to find good quality baskets like these. Sardinian people believe that basket weaving is a dying skill and they hope to preserve it in the future.
