

WORKSHEET

FFs3-Unit 4

Teacher's
feedbacks

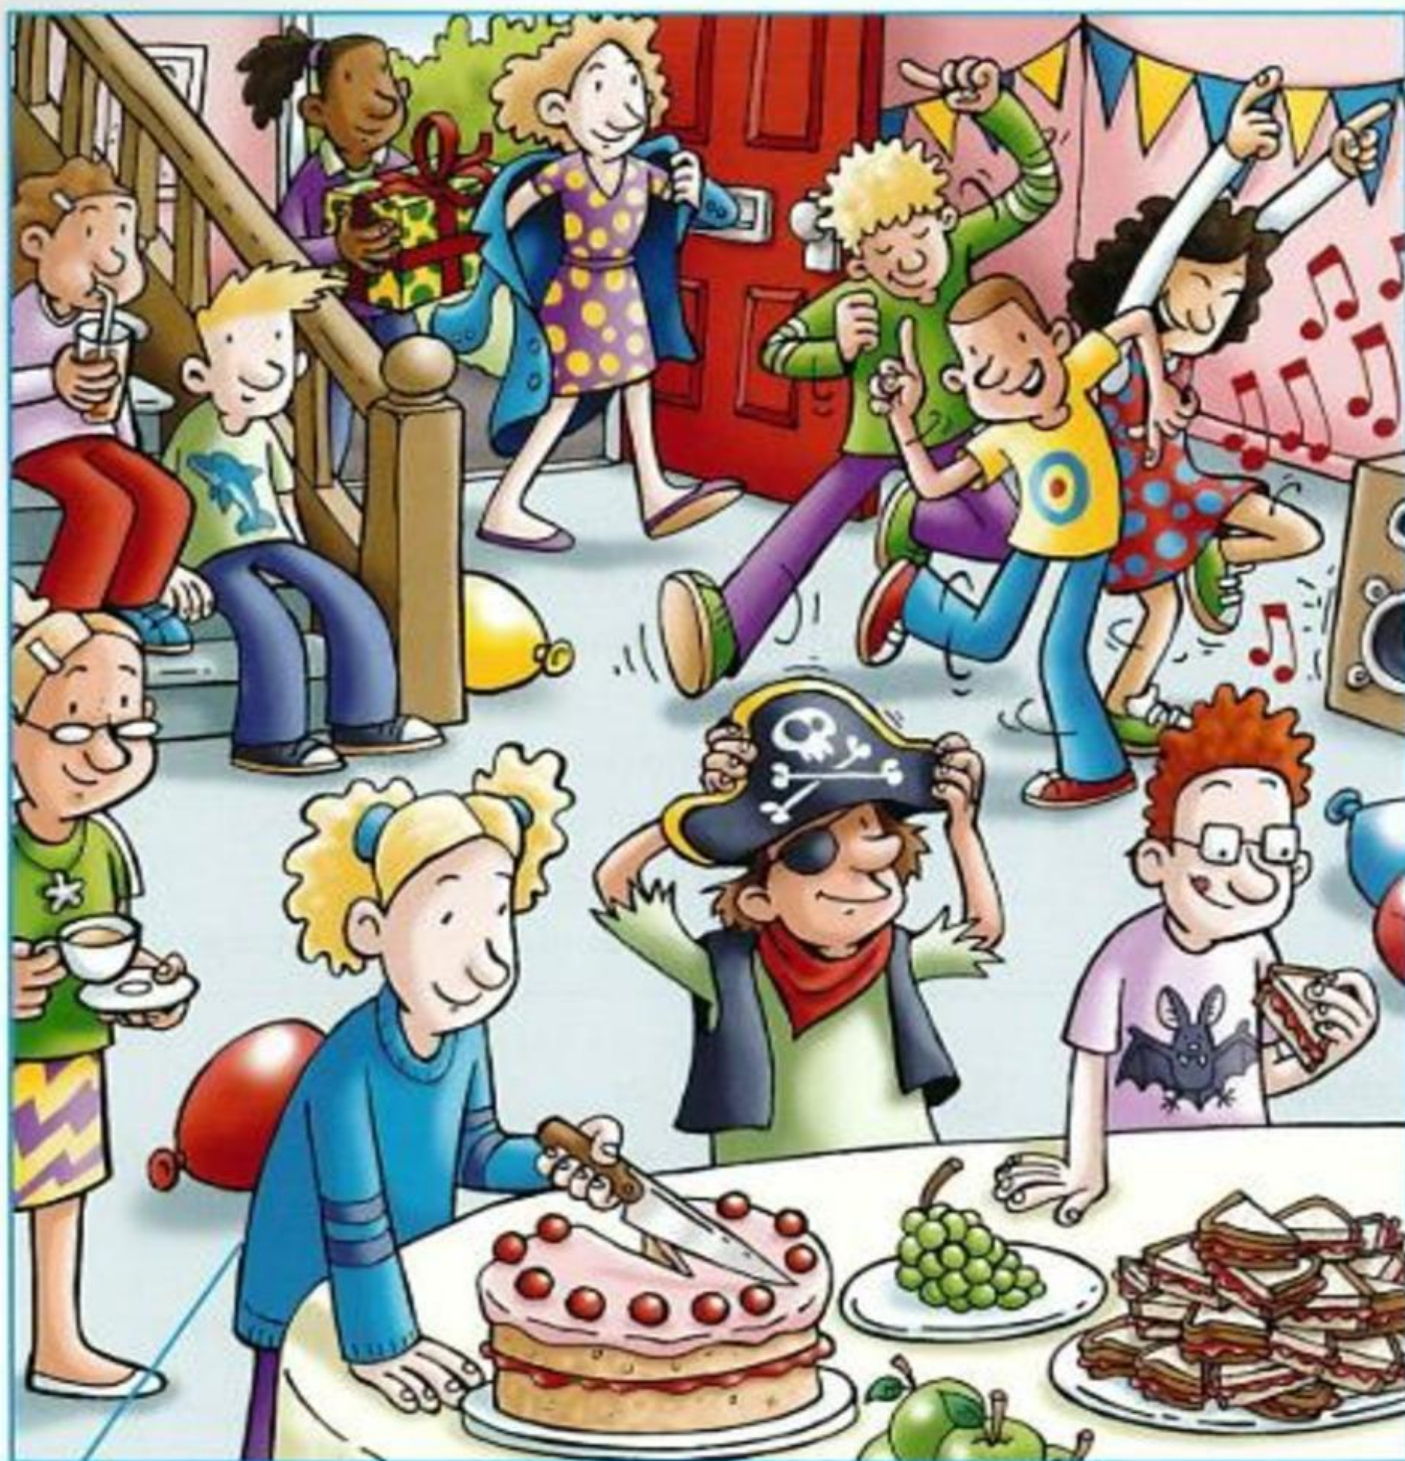

Task 1: Listen and match.

Jane

Charlie

Lily

Fred

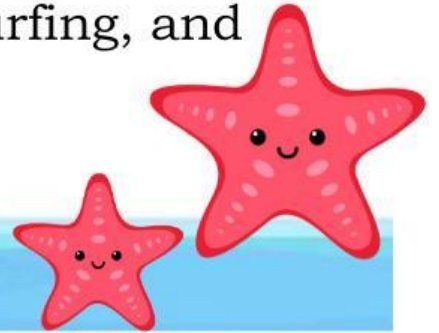

Mary

Peter

Jim

Task 2: Read the passage and write True or False.

The ocean covers more than 70% of the Earth's **surface** (bề mặt). It is very deep and very large. The ocean is home to many different animals like fish, whales, sharks, and turtles. Some animals live near the surface, while others live very deep where there is no sunlight. The ocean water is salty because it **contains many minerals** (chứa nhiều khoáng chất). The ocean helps control the Earth's weather and climate by moving warm and cold water around the world. People use the ocean for fishing, **transportation** (vận chuyển), and **recreation** (giải trí). Many people enjoy swimming, surfing, and sailing in the ocean.

***Questions:**

1. The ocean covers less than half of the Earth's surface.
2. Many animals live in the ocean.
3. All ocean animals live near the surface.
4. Ocean water is salty.
5. The ocean affects the Earth's weather.
6. People never use the ocean for fun activities.

Task 3: Read and write the sentences in **negative and **question form** with **present continuous**.**

Example:

(+) They are playing football in the schoolyard.

(-) They aren't playing football in the schoolyard.

(?) Are they playing football in the schoolyard?

1. (+) She is writing a letter to her grandmother.

(-)

(?)

2. (+) They are playing in the garden.

(-)

(?)

3. (+) I am eating lunch with my classmates.

(-)

(?)
