

FATHER'S DAY

1) Read the text about Father's Day.

Father's Day is the 3rd Sunday of June. It's a day to celebrate fathers and all they do for us. Today, over 50 countries celebrate Father's Day, including Canada, the UK, and the United States.

This celebration is not just for fathers. It's also for grandfathers and great-grandfathers!

Cards, handmade gifts, cakes, breakfast in bed and best behavior for a whole day are ways in which children show their dads how much they care and love them.

Every father is different. Some of them can teach you how to play games, do your homework, or complete chores in the house. Today, thank your dad for all it does for you and your family! Happy Father's Day!

2) Put TRUE or FALSE next to these sentences about the text.
