

# Listening Practice 1.3

Listen carefully to the audio recording. You will hear a monologue related to a real-life pharmaceutical context. After listening, answer all 7 multiple-choice questions (MCQs) based on what you heard.

**1. What medication was the patient prescribed?**

A. Metronidazole

B. Amoxicillin-clavulanate

C. Ciprofloxacin

**2. What is the patient unsure about regarding the dosing schedule?**

A. Whether to take it once or twice daily

B. Whether to wake up at night to take it

C. Whether to take it with milk or water

**3. What does the medication label advise the patient to do?**

A. Take it before bed

B. Take it with food

C. Avoid sunlight

**4. Why is the patient concerned about taking the medication without a full meal?**

A. It might be less effective

B. It could cause allergic reactions

C. It might upset their stomach

**5. What symptom has the patient experienced since starting the medication?**

A. Headaches

B. Nausea

C. Dizziness

**6. What question does the patient ask about missed doses?**

A. Whether to take double the dose

B. Whether to take the missed dose at bedtime

C. Whether to skip the missed dose completely

**7. What supplements is the patient currently taking alongside the antibiotic?**

A. Iron and folic acid

B. Vitamin C, magnesium, and probiotics

C. Calcium and vitamin D
