

Describe fully the single transformation which maps shape A to shape B

(a)

Rotation of 180° around the origin

(b)

Rotation of 90° around the origin

(c)

Rotation of 180° around the origin

(d)

Rotation of 90° around the origin

(e)

Rotation of 90° around the origin

(f)

Rotation of 90° around the origin

(g)

Rotation of 180° around the origin

(h)

Rotation of 90° around the origin

(i)

Rotation of 90° around the origin
