
Quiz Unit 4

AUDI A1

Activity 1

Instructions: Read the text and choose the correct answer in each question.

Text: A Day at GreenTech Solutions

GreenTech Solutions is an innovative company that provides digital services to international clients. At **GreenTech Solutions**, employees start work at 9:00 a.m. The company is always busy in the mornings because most meetings happen before lunch (1pm). Managers are often in video calls with clients in Europe, and the sales team frequently sends updates to the head office.

The company rarely has face-to-face meetings. Instead, they mostly use online platforms to communicate, for example Microsoft Teams, but they sometimes use Zoom. Employees are generally happy because they work from home three days a week. The IT department is sometimes slow to respond, but they are helpful in the end.

GreenTech Solutions also organizes team-building activities. These events are not very frequent — they usually happen one time every three months. Staff members say they are always fun and help everyone feel more motivated.

? Questions
