AGRICULTURAL SCIENCE

Choose the right option from the list given below

1. Primary tillage is otherwise known as ____ A. harrowing B. plowing C. ridging D. stumping
2. Secondary tillage is otherwise known as ____ A. harrowing B. ploughing C. mulching D. stumping
3. The operation that follows harrowing is ____ A. ridging B. stumping C. clearing D. layout
4. Stumping is carried out with the following except ____ A. gun B. cutlass C. bulldozer D. axe
5. Which farm operation involves the breaking or turning of the soil? A. Stumping
B. Ridging C. Tillage D. Harrowing
6. Which of these farm operations involves the division of plots for farm work? A. Ridging B. Harrowing C. Tillage D. Farm layout
7. ____ allows easy penetration of roots into the soil A. Harrowing B. Tillage C. Stumping D. Land clearing
8. One of the following is not a basic consideration in planting operation A. plating space B. planting depth C. planting time D. seed pod
9. The distance between two sown seeds/plants is ____ A. Planting space B. Time
C. Planting depth D. Planting seed
10. Some seeds are raised in the nursery because A. The seedlings are weak B. The seedling are green C. The seedlings love the nursery D. So that they can get enough sunshine
11. This is the distance of the sown seed in the soil A. Planting time B. Planting Depth
C. Spacing D. Number of seeds
12. The covering of soil surface with vegetative material is known as A. Weeding
B. Thinning C. Mulching D. Supplying

NAME; _____

DATE; _____

13. This is the removal of unwanted plants on the farm A. Weeding B. Thinning C. Mulching D. Supplying
14. This is the removal of excess and weak seedling from the seedbed A. Weeding B. Thinning C. Supplying D. Mulching
15. Correct planting population can be maintained by ____ A. Thinning B. Supplying C. Weeding D. Mulching
16. Which of these is not an organic manure? A. Compost B. Farmyard manure C. Green manure D. Ammonium nitrate
17. The growing of crops (legumes) and ploughing of the same into the soil as soon as it flowers is called? A. Compost B. Farmyard manuring C. Green manuring D. Yellow manuring
18. Which of these manure is feces or droppings of animals usually used in making.
A. Compost B. Farm yard manure C. Green manure D. In organic manure
19. What are Post Planting Operations?
 - a). activities that are carried out after planting of seeds
 - b). the movement of seedlings from the nursery bed to the field
 - c). the activities that are carried out before planting is done
 - d). the process of postponing the planting operations
20. Which of these operations involve the removal of left over parts of plants in the soil?
A. tillage B. Stumping C. Harrowing D. Ridging
21. Plants that are growing where they are not planted or wanted is called.
A. Weeds. B. Unlikable. C. Green plants. D. Rich plants
22. Which of these operations comes first? A. Tillage B. Ridges C. Stumping D. Harvesting
