

1. All matter has two general properties: mass and _____

2. We measure mass in kilograms and _____

3. Mass divided per volume is _____

- A) Air
- B) Metres
- C) Density
- D) Kilograms
- E)

4. _____ is a mixture of different gases.

5. What factors affect friction? _____

- A. force and motion
- B. weight and type of surface
- C. density and volume

6. _____ are machines that use different energy sources to provide enough force to make vehicles move.

- A. Engines
- B. Rollers
- C. Wheels
- D. Friction
