Name: _____

Read and answer the questions below.

Reading 1: Life in my city

My name is Daniel, and I live in a busy city that offers many types of public transportation. Every morning, I take the subway to school because it is faster than the bus and helps me avoid the heavy traffic jams that happen during rush hour. On the weekends, I enjoy riding my bicycle along the bicycle lanes to the local park. There, I meet my friends and we play football or just relax on the grass.

My neighborhood has enough bus stops and taxi stands, which makes it easy to move around the city. There is also a large parking garage near the shopping mall where my parents park the car when we go shopping. One of the things I like most about my city is the recycling center near our house. It's convenient, and my family tries to recycle as much as possible. In recent years, the city has improved a lot. Reading 2: A Trip to Zurich

Last summer, I traveled to Zurich, Switzerland with my family. It was one of the happiest cities I've ever visited. The city is clean, safe, and full of beautiful green spaces. We stayed near the city center, so we could walk or use the excellent public transportation. There were plenty of subway stations and bus stops, so it was easy to move around. We even used the tram to get to the mountains for a hiking trip.

One of the things I liked most was the atmosphere. People were friendly, and everything was well-organized. I also noticed that Zurich has recycling bins on almost every street. It's clear the city cares about the environment. At night, we went to local restaurants where we tried Swiss dishes like cheese fondue and rösti. The food was delicious, and we met people from many different countries. I hope I can return one day.

WRITING ACTIVITIES

1. Write a paragraph about your city or neighborhood. Include places you visit, how you move around, and what you enjoy doing. Use expressions like "more," "enough," or "too much."

Example:

I live in Loja. It's a small but beautiful city with enough green spaces and parks. I usually ride my bike in the mornings because there are special bicycle lanes. There is too much traffic in the afternoon, so I prefer walking or taking the bus. There are more restaurants downtown than in other areas, and my favorite is a little café near the library. I think my city is clean, friendly, and a happy place to live.

2. Write about a great weekend you had. Use past tense and "used to" to describe past habits.

Example:

Last weekend was amazing. I was at my cousin's house in the countryside. When I was younger, I used to visit them every summer. We had a big barbecue, played board games, and even went swimming in the lake. I was very happy because I remembered all the fun we used to have. I hope we can do it again soon.
