POLARITY
SORT THE STATEMENTS

INSTRUCTIONS:
READ EACH STATEMENT AND WRITE IT TO THE CORRECT COLUMN ACCORDING TO ITS POLARITY:

POSITIVE	NEGATIVE	NEUTRAL	MIXTA

"The tool performed better than expected."

"There were several limitations in the data collection process."

"The table displays five types of linguistic markers."

"While the software improved response time, it often crashed."

"Despite its speed, the model lacked precision."

"Results showed an impressive increase in accuracy."

"The system failed to detect key patterns."

"The figure represents the study's main variables."
