What if there were no sides at all

Just a big blue ball - floating in .....

It's a beautiful world - but a ..... place

It's perfectly .....- it's perfectly clear

There are no sides - on a ..... sphere

Don't make me hate - don't make me .....

Why should one side win and the other side .....

I don't understand - why ..... sides at all

There are no sides - on this big blue ball

We tell ourselves it's a stand we take

But there's no sides ..... the ones we make
