

# Building Arguments

Khi tranh biện, em cần xây dựng được những lập luận thật rõ ràng. Trước tiên, em phải chọn được các lập luận hỗ trợ tốt cho lập luận chính của mình. Sau đó, hãy tìm những dẫn chứng củng cố cho từng lập luận hỗ trợ đó. Cuối cùng, em cần giải thích vì sao lập luận của đối thủ là không đúng. Đó gọi là phản biện.

### Main Argument

School lunches should be free.

Answers: p 119

#### School lunches need to be free, and here's why!

14

Joshua

To me, all schools must give their students free lunches. Governments in most countries give free education. Since school is free, school meals should also be free. The governments would only need to spend a little more money on schools to give free lunches. This way, all children can get nutritious meals at school and study better.

#### Summary

Joshua thinks that school lunches need to be since is free.

#### That's not true. Students have to pay for their meals.

15

Melissa

Free school lunches do not work in the real world. In the United States, about 50 million children attend public schools. If all of them get free lunches, then the government will have to raise taxes a lot. Schools should only give free lunches to students from low-income families. These students do not have enough money to buy lunches. But other students need to pay.

#### Summary

Melissa believes that students from families can get free lunches, but other students need to .
