- is also a writer

- d** Read the *Film international* article and find out the answers to the quiz.

FILM INTERNATIONAL

Isla Fisher, Rose Byrne and Mia Wasikowska are three famous actresses who work in Hollywood, and they have many things in common.

All three come from Australia and before going to Hollywood their very first acting jobs were in Australian TV dramas and soap operas. They've acted in some very popular films. Isla was in *Wedding Crashers* and *The Great Gatsby*, Rose was in *Bridesmaids* and *X-Men: First Class* and Mia was in *Alice in Wonderland* and *Jane Eyre*. They've all won awards in the USA and Australia for their acting.

However, outside of acting, they've done some interesting and unusual things. Isla isn't only interested in films. She studied theatre in France when she was younger and she's written two novels. Rose has worked for UNICEF in Australia. She's also a model and has done TV work for the famous make-up company, Max Factor. Mia, the youngest of the three, trained as a dancer at school, but now she really loves taking photos and has won a national prize in Australia for one of her photos. Isla, Rose and Mia aren't just three amazing actresses, they're three amazing women.

2 GRAMMAR Present perfect: positive
