Sasha and Kate are best friends, but they have very different styles. Take a look at their photos!

Sasha's hair is longer than Kate's hair, but it isn't as straight as Kate's. Sasha isn't taller than her best friend, but she's wearing shoes with higher heels in this photo, and that makes a big difference. Sasha's pants are tighter than Kate's. "Baggy pants are very comfortable, but I think tight jeans look better," Sasha says.

Kate's hair is shorter than Sasha's. In this photo, she has her hair in a ponytail. Kate is wearing a tighter T-shirt than Sasha, but Kate's pants are baggier. Kate is also wearing lower shoes. "I like being comfortable, especially when I'm shopping," she says. "I don't worry a lot about fashion."

What do the girls say about their personal styles? Sasha says, "We look different and dress differently, but that isn't important." Kate says, "We're best friends, but we aren't identical, and you can see that in our style."
