VII. Read the following passage. Decide if the statements from 23 to 26 are True or False and choose the correct answer (A, B, C or D) for the questions 27 and 28.

Teenagers can get a lot benefits from participating in sports and exercise. As their bodies and minds are still developing, staying active is important. Engaging in sports not only helps them become stronger but also allows them to socialize and make friends.

An advantage of sports and exercise for teenagers is improved fitness. Just thirty minutes of daily exercise can lead to noticeable improvements in their health. While some may believe teenagers tend to overeat and gain weight, regular exercise can help manage this. Moreover, instead of feeling tired, exercise actually boosts their energy levels.

Another benefit of doing sports is the opportunity for social interaction. Joining a sports team enables them to meet new people and build lasting friendships. Many enduring friendships start this way, through shared experiences on the field or at the gym.

23. Teenagers do not gain any social benefits from participating in sports.

24. Playing sports prevents teenagers from making new friends.

25. Just half an hour daily exercise can lead to noticeable improvement in teenagers' health.

26. Regular exercise can help teenagers manage their weight and boost their energy levels.

27. According to the passage, which of the following is NOT MENTIONED:

Participating in sports and exercise provides many benefits for teenagers:

- A. improved physical health.
- B. increased energy levels.
- C. had opportunities for social interaction and friendship.
- D. reduced stress.

28. Which of the following could be the best title for the passage?

- A. **The Advantages of Sports and Exercise for Teenagers.**
- B. The Dangers of Sports for Teenagers.
- C. Only Professional Athletes Benefit from Sports.
- D. Why Teenagers Should Avoid Exercise.
