Someday

When my ..... has passed me by

I lay around and ..... why

You were always there for me

One way

In the ..... of a passerby

I look around for ..... try

And fade away

Just close your eyes and I'll ..... you there

This .....is warm without a care

We'll take a ..... in the deep blue sea

I go to leave and you reach for me

Some say

Better things will.....our way

No matter what they.....to say

Someway

When the sun ..... to shine

I hear a.....from another time

Someone said you tried too long

Someone said we ..... it all

Is there a place where I belong?

So far and so .....

So far away

So far and so .....
