

Wow! Look at That!

Museums are great places to visit at the weekend. They teach us about the world in fun ways. Many museums have special exhibitions for children. Other museums are ALL for children!

Are these dinosaurs escaping from a museum? At The Children's Museum in Indianapolis, USA, there are giant models of dinosaurs outside. Some of them are running away and others are looking in through the window!

Inside the museum there are real dinosaur fossils, rooms about science, art, culture, history and much more. You can learn about the stars in the planetarium, you can go to the theatre and you can even go rock climbing!
