IV. Fourth Part. Reading Comprehension. Questions from 16 to 20.

"Small Changes, Big Impact:
How Recycling Helps Protect Our Planet"

Pencil drawing coloured by Laura Sofía Parra and Mariana Picon (11-03)

Every day, we wake up and follow routines that seem simple: brushing our teeth, getting dressed, eating breakfast, and going to work or school. But in the middle of these everyday habits, we often forget how our actions affect the planet.

LIVEWORKSHEETS

Making small changes in our daily lives can help protect the environment, and recycling is one of the easiest ways to start.

For example, instead of throwing away plastic bottles, we can reuse them or put them in the recycling bin. It's surprising to know that plastic can take over four hundred years to break down. By recycling, we reduce the amount of waste that ends up in landfills and oceans. It also saves energy—recycling one aluminium can saves enough energy to power a TV for three hours!

Pencil drawing coloured by Valentina Rodríguez (10-02)

16. **What daily activity is mentioned as one way to help protect the environment?**
    A. Eating breakfast
    B. Going to work
    C. Recycling
    D. Brushing teeth

17. **According to the text, how long can plastic take to break down?**
    A. 40 years.
    B. 400 years
    C. 4 years
    D. 14 years

18. **What is the main message of the text?**
    A. We can't reduce the amount of waste that ends up in landfills and oceans.
    B. Recycling is difficult in our daily life.
    C. Small changes like recycling can protect the environment.
    D. Plastic breaks down quickly.

LIVEWORKSHEETS

"How New Technologies Are Transforming Our Lives"

New technologies have changed the way we live and communicate. We use smartphones to talk to friends and family, access information, and take photos. Computers and tablets help us work, learn, and entertain ourselves. The internet connects us to the world, allowing us to shop, learn, and share ideas.

New technologies have also improved our daily lives. We can use apps to order food, pay bills, and track our health — and now we even need to understand the language of these new technologies. Smart home devices make our lives easier by controlling lights, temperature, and security. Technology has opened up new opportunities for education, work, and socializing, making our lives more convenient and connected.

Pencil drawing coloured by Maite Montaño (10-01)

Pencil drawing coloured by Mariangel Ospina (11-02)

19. What do we use smartphones for, according to the text?

A. Only for playing video games, but not to work or learning.
B. They are perfect for rainy days because they keep us dry in wet weather.
C. For talking to friends and family, accessing information, and taking photos.
D. They keep food and drinks cold, making our lives more convenient.

20. How do smart home devices help around the house, according to the text?

A. Smart home devices allow us to shop online, but not talk to friends.
B. Smart home devices can help control lights, temperature, and security.
C. Smart home devices can read minds and predict exact needs.
D. Smart home devices make phone calls but don't take photos.
