A Musicians Family

Hello! My name is Natalie. I am 22 years old. This time, I would like to tell you about my family. We all are musicians.

I want to begin the hobbies I had before I became a musician. When I was younger, I used to love playing volleyball but I didn't like swimming. However, I didn't use to practice it frequently. Even, when I was 14, I wanted to be part of the school volleyball team, but I couldn't. The coach told me that I needed to practice more. So, After that event I discovered my talent for music.

Currently, I am dedicated to the music. I am good at playing the guitar and the drums, but I am not good at playing the piano. I learned to play the guitar when I was 16. It

wasn't difficult because my parents are great musicians. They taught me to play it very well. That's why I love music. About the drums, I learned to play the them with my friends and now we want to form a band.

My older brother John likes playing the electric guitar, he is very talented. He has a rock band but I can't stand listening to them when they practice at home. I really dislike it. He is good at playing the trumpet too. To tell the truth, he is good at playing any musical instrument.

Then, my parents, they are Jazz musicians and they have a band, they are unique and creative artists. They told me that the nature of jazz is to play with others, for that

reason most of their playing and practicing are with other musicians. My dad plays the trumpet and my mom the saxophone. They need the other musical instruments to create harmonious sounds. My parents their band give lots of concerts in the city.

But as musicians, it is not everything music. We also have a time to chill out. When we don't practice or have concerts, my mother likes cooking and she is really good at it. She also likes drawing pictures in her free time. My father's hobby is reading and he always reads books every afternoon and he dislikes watching soap operas on TV. Lastly, my brother and I sometimes are crazy about playing videogames. I don't like staying at home and doing nothing. Anyway, who loves that?
