

Building Arguments

Khi tranh biện, em cần xây dựng được những lập luận thật rõ ràng. Trước tiên, em phải chọn được các lập luận hỗ trợ tốt cho lập luận chính của mình. Sau đó, hãy tìm những dẫn chứng củng cố cho từng lập luận hỗ trợ đó. Cuối cùng, em cần giải thích vì sao lập luận của đối thủ lại không đúng. Đó gọi là phản biện.

Free health care is good for everyone. If there is free health care, people can be healthier and have better lives. When my family members are sick and cannot see a doctor, I feel sad about that. But if they get good treatment at the hospital for free, then I know for sure that they will get better. Free health care can let everyone get help when they need it.

Kayla

Summary Kayla believes that _____ health care is good for her _____ members when they are sick.

I disagree! Free health care is a waste of money.

Free health care for all is a big mistake. If there is free health care, even people with no need for a doctor will go to hospitals. Hospitals will get too crowded. Doctors will not be able to help patients who are seriously sick quickly enough. In addition, the wealthy do not need free health care. They can pay for it themselves.

Jackson
