Guess the Animal!

Part 1 – Think

Look at these pictures of 12 different animals. How would you describe them? Think about what they look like and their *physical features* (how big, fur, scales, wings, legs, eyes, ears, tail, etc) and *what colour are they?*

A	B	C	D
E	**F**	**G**	**H**
I	**J**	**K**	**L**

Part 2 – Speak

Choose a picture. Don't tell your partner which animal you have chosen. Your partner will ask you questions about your picture to try and guess which animal it is. You can only answer 'yes' or 'no'. When they have guessed, they will choose a different picture and you will ask questions about your partner's animal.

Example questions: Has it got four legs?
Has it got wings?
Can it swim/fly?
Is it black? Is it very big?

Part 3 - Draw

Draw a picture of an animal.
Do not show your partner.

Part 4 – Speak

Your partner will ask you 10 questions about your picture. You must answer 'yes' or 'no'. After, they will try to draw your animal.

Now ask your partner 10 questions about their picture, and then draw what you think it looks like here:

Have a look at your pictures. Are they similar? If they are different, *how* are they different?
