How to Withdraw Money from ATM Machine

If you want to withdraw money from ATM, please prepare the following things:

1. Automated Teller Machines (ATM)
2. Bank account
3. ATM Card
4. Balance

There are few steps to withdrawal cash from ATM:

First, insert your ATM card in the ATM machine.

Next, enter your PIN number. This is one of the most important parts. Use Keypad to enter your 4 digit pin and make sure that there is no camera or anyone seeing your pin number before entering the pin.

After that, choose transaction Type. For withdrawal cash, you have to choose Withdraw Money option.

Next, Choose the amount you want to withdraw but make sure that the amount you are entering is not more than your main balance.

Finally, Take Your Money which comes from the cash dispenser machine. Don't forget to take your money before 30 second. If you want to have another transaction, chose "Another Transaction". Once you've completed your transaction, press cross or cancel button. Don't forget to take your ATM card!
