8. **Sequence Key Words**
    - since, because, if, due to, as a result of, so, then, leads to, consequently
    - How to Make Cookies. First, get your materials. Then, make your dough. Lastly, cook your dough at 400 degrees for 10 mins
    - for example, for instance, characteristics include, specifically, in addition before, to start, first, next, during, after, then, finally, last, in the middle, to finish

9. **Cause and Effect Passage**
    - Many people think that they can get sick by going into cold weather improperly dressed; however, illnesses are not caused by temperature- they are caused by germs. So while shivering outside in the cold probably won't strengthen your immune system, you're more likely to contract an illness indoors because you will have a greater exposure to germs.
    - Heavy rains can cause flooding in small streams. For weather forecasters and local authorities, this flooding can be difficult to predict. Fortunately, the United States Geological Survey (USGS) has more than 7,000 stream gages that measure water flow. These stream gages help scientists to monitor water levels in good and bad weather.
    - Apples and oranges are both fruits, which means that they have seeds inside of them. Each has a skin, but orange skins are thick and easy to peel. Apple skins are thinner and do not peel easily. Oranges also contain more acid than apples, but both fruits are delicious.
    - since, because, if, due to, as a result of, so, then, leads to, consequently

18. **Descriptive Example Passage**
    - Heavy rains can cause flooding in small streams. For weather forecasters and local authorities, this flooding can be difficult to predict. Fortunately, the United States Geological Survey (USGS) has more than 7,000 stream gages that measure water flow. These stream gages help scientists to monitor water levels in good and bad weather.
    - For example, For instance, characteristics include, specifically, in addition
    - Volcanoes are a feared and destructive force for good reason. A volcano is like a pressure valve for the inner earth, but they can also be very beautiful. One part of the volcano that people rarely see is the magma chamber. The magma chamber is way beneath the Earth's bed rock. It is tremendously hot. Running from the magma chamber to the crater of the volcano is the conduit. The conduit connects the magma chamber to the outer world. At the top of the volcano is the the crater. This is where the magma exits. Volcanoes are a beautiful yet dangerous natural phenomenon.
    - Apples and oranges are both fruits, which means that they have seeds inside of them. Each has a skin, but orange skins are thick and easy to peel. Apple skins are thinner and do not peel easily. Oranges also contain more acid than apples, but both fruits are delicious.
