

Lena's Job Story – A2 Business Idioms

Reading Activity

Part 1: Read the Story

Lena worked in a small office. Her first job was a **dead-end job** – she answered phones all day. There was no chance to grow.

But Lena worked hard and started to **climb the corporate ladder**. After five years, she got a better job and was on the **fast track** to success. She was now **in the driver's seat** of a big team. Their product was a **cash cow** – it made a lot of money for the company. People said it was like a **golden goose** – very special and profitable.

One day, her company had a big problem – a **bump in the road**. A project was late because some people **cut corners** and didn't do a good job. Lena gave her boss a **ballpark figure** – a quick estimate of how much money they needed to fix it.

There was some **pushback** from her team. They didn't like the new ideas. There was also a lot of **red tape** – too many rules and documents. Still, Lena stayed strong and decided to **toe the line** and follow the company rules.

Then, a big change happened. The company merged with another one. Some people **jumped ship** and left the company. One of her coworkers felt he had **hit the ceiling** – he couldn't grow anymore. He left with a **buyout** and got a good **exit package**.

Lena stayed. The company wanted her to stay, so they gave her **golden handcuffs** – a big salary and bonuses to keep her. If she lost her job in the merger, she would get a **golden parachute** – a lot of money. Many others got a **severance package** or a small payout.

In the end, Lena did very well. She helped the company, and when she finally left after 10 years, she got a **golden handshake** – a thank-you bonus. It was a **soft landing** for her next job.
