Task 2: Read and write T/F

Today, many people prefer living in modern houses because they are designed with convenience in mind. Modern houses often have large windows, open spaces, and modern equipment such as air conditioners, washing machines, and smart TVs. However, traditional houses, which can still be found in rural areas, have their own charm. They are usually made from natural materials like wood or bamboo and are surrounded by nature. Traditional houses may not have as many modern facilities, but they often feel warmer and closer to the environment.

Both modern and traditional houses offer different lifestyles. Choosing where to live depends on what people value more: comfort and technology or peace and nature.
