For real

Social Networking

Student A: Your friend is not a member of any social networking website because he / she doesn't think they are interesting and cannot see any good that comes from them. You are a member of several social networking websites and are convinced your friend should join at least one of them. Try to convince him / her.

Student B: Your friend is trying to convince you to join a social networking website, but you are not interested and cannot see any good that would come from it. Explain to your friend the disadvantages you see in joining a social networking website.
