[Verse]

You say the stars are brighter here

_____

_____

You feel the night holds something near

_____

_____

[Prechorus]

And when the world feels far away

I know just what you'd say

[Chorus]

_____

I see it all in your eyes

_____

Feel the pull of the skies

_____

Let the shadows stay

_____

Let you drift away

_____

Actually

We're the same

[Verse 2]

LIVEWORKSHEETS

You say the wind whispers your name

_____

_____

You feel the fire

A gentle flame

_____

_____

[Prechorus]

And when the silence speaks so loud

Our hearts still beat unbowed

[Chorus]

I do too

I see it all in your eyes

I can too

Feel the pull of the skies

I don't either

Let the shadows stay

I can't either

Let you drift away

I'm not either

Actually

We're the same
