The Malaysian Automotive Association (MAA) stated that 30 electric vehicles were sold in the country in February, 2022. However, at the moment the charging infrastructure in Malaysia will have to be improved for there will be a great demand for the charges of electric cars. The electric cars will have more charging facilities on the west coast but less places are available on the east coast as well as in Sabah and Sarawak. It is hoped that sales will pick up when problems have been rectified.

8. Electric cars
- A need charging stations.
  - B will be in great demand soon.
  - C are popular in the country.
