

KEY ELEMENTS OF CLASSROOM MANAGEMENT

Fill in the gaps with the corresponding classroom management elements according to the descriptions

Behaviour Management, Monitoring and Feedback, Student Engagement, Creating a Positive Learning Environment, Time Management, Establishing Rules and Expectations, Lesson Structure and Organization, (Digital) Space & Resource Management

Key aspects of classroom management usually include the following interrelated elements:

1. _____
 - Setting clear behavioural norms and routines from the start.
 - Communicating expectations consistently so students know what is acceptable.
2. _____
 - Building respectful teacher–student and student–student relationships.
 - Encouraging inclusion, collaboration, and mutual respect.
3. _____
 - Planning and sequencing activities effectively.
 - Preparing materials and technology in advance.
4. _____
 - Using class time effectively to maximize learning.
 - Incorporating smooth transitions between activities.
5. _____
 - Preventing and addressing disruptive behaviour constructively.
 - Using positive reinforcement, redirection, and restorative practices.
6. _____
 - Incorporating interactive methods, maintaining active participation and motivation.
 - Differentiating tasks to match students' interests and abilities.
7. _____
 - Arranging layout to facilitate learning and supervision.
 - Organizing the online learning environment (platform structure, navigation).
8. _____
 - Observing students' participation and understanding.
 - Providing timely, constructive feedback on both behaviour and learning progress.
