

## READING COMPREHENSION

### 1. Read the article about wildlife rescue centre in Ucayali.

## Ucayali Wildlife Rescue Centre

Ricardo is a veterinarian here at the Ucayali Wildlife Rescue Centre. We asked Ricardo about some of the rescued animals.

#### What animals live here?

Spider monkeys, Taricaya turtles and macaws live here at the rescue centre.

These are spider monkeys or *maquisapas*. They live in the jungle. They are black. They have long arms and long legs. They have a big tail.

This is a Taricaya turtle. His name is Carlos. He lives in the river. He is green. He has a hard shell and he has small legs. He swims very well.

This is a macaw. Her name is Luisa. She lives in the rainforest. She is blue and yellow. She has strong wings and she has colourful feathers. She flies very fast.

#### What message do you have for teenagers?

Let's protect these animals because they are endangered.
