

Q1. The Farmer's Puzzle

8	5	2	

Your job:

Help Farmer to write the number he formed in the Middle row. Then, subtract all three numbers to find the total and write the total in the last row.

Q2. The Confused Durva's Puzzle

Help me!

*To Form Great 3
digit number and
small 3 digit number
using 8, 4, 0. Use
each digit only once.*

First ROW

Second Row

Your job:

Help confused Durva to write the Great number in First row and Small number in Second row she formed. Then, subtract both Great and Small numbers to find the total and write it in the last row.
