My New Hobby

Last month, I decided **to start** a new hobby. I wanted **to try** something different because I was tired of just watching TV. My friend suggested **going** to the gym, but I don't really enjoy **doing** exercise.

Instead, I chose **to learn** how to play the guitar. At first, it was difficult, but I kept **practicing** every day. My teacher encouraged me **to play** simple songs, and now I can play two of them!

I also enjoy **listening** to music and trying **to copy** the chords. Sometimes I forget **to bring** my notebook to class, but my teacher always reminds me **to write** things down.

Learning the guitar is not easy, but I plan **to continue** practicing. I hope **to become** good enough to play in front of my friends one day!
