แนวข้อสอบเขียนปลายภาค

Yesterday, our teacher gave us some instructions in class. She asked us to open our books to page 20. Then she asked us to read the story together.

During the activity, Tom said that the teacher asked him to read aloud. After that, Anna said that the teacher asked her politely to write the main ideas on the board.

Later, the teacher asked us not to use our phones during the lesson. Before the class ended, she asked me if I could help her carry the books back to the office. Everyone was happy to help.
