

My Achievements So Far

My name is Camila, and I'm 17 years old. I usually spend most of my time studying because I want to get into a good university. I always work hard, and I try to give my best in every subject. Right now, I'm preparing for a science competition, and I'm practicing experiments with _____ my _____ classmates _____ every _____ afternoon.

I also play the guitar. I practice twice a week, and I often perform at school events. Currently, I'm learning a new song because we're performing at the graduation ceremony next _____ month.

Another achievement is my progress in English. I read English books every week, and I watch movies without subtitles. This year, I'm improving my speaking skills by joining an online _____ English _____ club.

I believe small steps lead to big achievements. I don't win every time, but I'm always learning and becoming better. Right now, I'm enjoying the journey, and I feel proud of the progress I'm making.
